As full-time speakers, writers, and musicians, Eric and Leslie challenge and encourage young adults and singles around the world to pursue holiness in every aspect of their lives. The Ludys live in Longmont, Colorado.

I like the book and think it has many good points. It really zeros in on getting yourself right and having faith in God for his provision. For me there was just something too easy about Eric Ludy's blueprint for a successful Godly marriage. Maybe because I am older and have seen that trying to control anything with God doesn't work. I had the feeling from Eric's writings that if you just did abc, that xyz would happen. I have lived long enough to see that is not the case

One of the best books you could possibly read! It deff helps you view things, relating to your love life, in a different perspective as well how you could approach things and situations. I do have to say that you have a have a little maturity to read it, you cannot head in with the mindset that the book itself will bring your future spouse. But instead question yourself what you're willing to give and do for yourself? And most importantly, how much are you willing to trust our Lord in this area of your life. This book is for GUYS AND GIRLS, and guys don't be embarrassed you'll love it!

Sweet book with a hopeful message. I love the two sides represented. As a Christian female, I most often read books written by females for females. To read a book with a male's perspective really changes the dynamic. Only a man can tell you what men think. The Ludy's love story comes to light in this book and provides hope to the reader. Your Prince Charming is out there - we need only wait on God's best!

Very good book; I recommend it to all teens and/or college aged persons seeking after God's own heart. I even passed this book on to one of my dear friends. Granted, I didn't agree with everything in the book, but it still was very well-written.. I read it this past summer, and it was just what I needed to hear. I felt empowered, encouraged, and uplifted. Even though I am not looking for a relationship at this point in time with my walk with God, I feel better about singleness, though others around me may not support my decision. Has a lot of good thought-provoking ideas, topics, and opinions that really make one think about that aspect of a relationship and one's journey towards that life-long commitment that so many desire. It gives personal examples so that you can relate to the authors and see their hardships, their journey, their struggles. People say I will get married, but only God knows. If I do get married (and only because God has it in his plans,) I cannot wait to see the

unfolding/unveiling of how God has written my love story. He already has for each of us, it is just a matter of time until He reveals it to us.

As a single guy who's never had a girlfriend, wanting to experience the beauty of love and marriage God's way, this book was extremely helpful and refreshing. Our culture puts such an emphasis on surface-level romance and casual love relationships; it has no idea what it's missing in following God's way of love and romance. God, being the creator of love and romance, cares about these areas of our lives -- we can trust Him completely. Our culture's method of dating only leads to multiple heartbreaks, and instead of preparing young people for a lifelong marriage commitment, it sets them up for divorce. God's way is much sweeter, much more romantic -- waiting for the one He is preparing to give you! This book is a huge encouragement, and a solid source for answers to questions for young people like me who are committed to waiting on God to write our love stories.

So, I'm not done with the book yet, I still need to read the last part, but I mean. The Ladies have covered everything I was expecting them to cover about relationships, or probably what I was looking for. They have even mentioned stuff I didn't expect AT ALL to be mentioned in a guy/girl relationships book. It's THAT good. And those are good and necessary things for a healthy relationship to happen. The book's purpose is to draw you close to God, and put in you this desire to do things God's way, and not your way, which I find AMAZING. And I actually am experiencing that desire now, as a result of reading through it. And this is so like, not me, but I cried once or twice reading this. I had a couple questions while I was reading, and a few pages later, they were answered clearly, and biblically. I agree with basically everything they have said here. But that's probably just me. If I could give this book 6 stars or more, I would. Period.

This is a most excellent topic for singles of any age. It is also a great topic for married couples who are having difficulties with their relationship. Our love affair with Jesus should be our focus on a daily basis. Without the ultimate love affair all other relationships are built in and on the flesh. The flesh will disappoint you but the Spirit of the Living God will anoint you and appoint you and align you with your chosen partner.

Eric and Leslie offer valuable advice drawing from their personal experiences on finding each other. For anyone who wants a realistic and God-driven approach to romantic love, this is a great book to read.
