I love this activity book! I have used all of The Story of the World books with my children. I used only two of the activity guides in the past as I use another curriculum in conjunction with these books. My youngest is now in 7th grade and I am going to use this activity book exclusively with her for the remainder of this year and her upcoming eighth grade year. I am so very pleased with it! I almost didn't get it because of the other reviews but there was one that gave me hope. My daughter is so glad I gave it a try. We love the activities, as well as the outlines, and maps! The timeline figures work very nicely with our timeline book we just cut them a little smaller. Thank you Susan Wise Bauer and Charlie Park for another great activity book!

Packed full of maps for geography work -- awesome outlines that are left partially blank for the students to fill in -- It is definitely geared towards the older "middle grade" student -- advanced 5th grade and right on target for junior high's. The activity book no longer provides as many coloring pages as the previous books and this is a disappointment to all of us, even our 8th grader. Otherwise, it's a nice wrap up and well written and informative.

Dynamite history program! Interesting alone but awesome as a full history curriculum if you get the activity booklet and test booklet. We are excited about history this year! Great for hands on learners. Good for using with multiple kids of different ages, and can be rotated out year to year. Excellent narrative style writing by keeps you interested.

We're halfway through our fifth year of homeschooling and Story of the World books are ALWAYS well written and informative without being dry.

We really enjoy the book this activity book is a supplement to, but I really feel like this activity book doesn't add that much and is actually a little complicated. My third grader had a lot of trouble figuring out what they were asking for on many pages, and I agreed. I like having something to review the material with, but this wasn't that great...

The recounting of history in this story based format is wonderful. My homeschoolers are eager to hear what happens next and remember huge chunks of history because of the simple, yet thorough breakdown. Highly recommended for every homeschooling family teaching history.

I love a textbook that doesn't read like a textbook and so do my kids. A bit tough for my 2nd grader to comprehend, but perfect for my fourth grader. Introduces outlining. Includes all the maps, timeline figures, comprehension questions, projects, etc. you will need to teach history and LOVE it.

SOTW series is just incredible!
