Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I should have thought about this further before purchasing. This might be fine if you either know the songs by heart or you're great at reading music but if neither then you will be lost trying to learn the songs simply by playing the chords. Because ALL the songs are theses SAME four chords they pretty much sound all alike! lol Kinda ridiculous, really!

love it and got a neighbor to order one!

The book has some good songs but this is a beginner book and I do not like the way it is laid out. Instead of having all the verses right under the cords they have only the first verse with the cords and the other verses printed with no cords at the end of the music.
