A World Lit Only By Fire: The Medieval Mind And The Renaissance: Portrait Of An Age

Synopsis

[Read by Barrett Whitener] The preeminent popular history of civilization's rebirth after the Dark Ages From tales of chivalrous knights to the barbarity of trial by ordeal, no era has been a greater source of awe, horror, and wonder than the Middle Ages. In handsomely crafted prose and with the grace and authority of his extraordinary gift for narrative history, William Manchester leads us from a civilization tottering on the brink of collapse to the grandeur of its rebirth, the Renaissance, a dense explosion of energy that spawned some of history's greatest poets, philosophers, and painters, as well as some of its most spectacular villains. One of the most volatile periods of western history witnessed the passing of the Dark Ages and the dawning of the Renaissance, illuminated by magnificent scientific and artistic achievements and spectacular leaps of thought and imagination. Manchester's narrative weaves together extraordinary figures, varied elements, and accomplishments of the period. --This text refers to the Library Binding edition.

ASIN: B000OI1BPG

Best Sellers Rank: #63 in Books > Audible Audiobooks > History > Europe #66 in Books > History > World > Expeditions & Discoveries #471 in Books > History > Europe

Customer Reviews

William's own voice rings throughout the book, making this not only a compelling text, but a romp through medieval times with one of the best of contemporary historians. Five stars simply aren't enough.

If you are just starting to enjoy history - decades after high school, you should own this book. Manchester manages to connect the dots on countless historical figures and events that you remember hearing about in school but never understood the historical implications. Those seemingly disparate events are masterfully woven into an intriguing and beguiling tale of the dark

ages that were not as dull as you might imagine.

Even an educated mind will be enlightened by this captivating journal of middle ages and god's sunset and challenge of the Catholic Church.

Very readable as all of Manchester's books are. Covers this period of world history beautifully and painlessly.

Top-notch, fast paced writing. One of those books that ends way too soon. William Manchester, like Barbara Tuchman, leaves a legacy of written history that is more compelling than the best fiction.

Excellent!!!

Once again William Manchester proves himself to be an outstanding historian, analyst and author. He brings history to life and makes significant connections with how one historical event affects another. Outstanding reading!A.A.

A very interesting read about the middle ages. The author must have done a lot of research to get such great details.This was fascinating.FYI - Doesn't paint a very flattering picture of the vatican/popes at the time but this appears to be validated by other references as well. Just fyi so you won't be offended.
