Really good to study for the SAT Subject test, since it is by the creator. I spent a few hours doing the practice tests and reviewing answers and I got a pretty good score on the actual test, so it is helpful.

The tests in the book helped my son improve his score drastically - of course, hard work and many evenings of study was the main ingredient but the tests helped my son sharpen his skills, learn what to expect and familiarize him with the process. His score improved by 200 points.

It literally just has 2 practice tests, no reviews of different topics or anything.

Only two tests for each subject :/

Do not buy this book...it is outdated and caused me to give the wrong information regarding whether or not to guess on questions to my son. The SAT changed in 2016 and this study guide does not reflect the changes in scoring. Don't buy it!

Book came home quickly, no problems. The cover is different, but content was useful.

Great product!

Good product quality.
