Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

My 8 year old daughter plays violin (she's in her second year). Her desire to practice was diminishing, so we bought this to bring back some life to her practice. She loves it! The songs are at an inconsistent level, so only some work for her right now. I'm okay with that because she can grow into the other songs and it gives her something to strive for.

This well-printed book is not going to be terribly easy for beginning violinists. The rhythms are often quite tricky to read, and the keys are often unfamiliar to beginners. At the same time, there are no lyrics and no guitar chords, so it's not useful as a general song book, which, to be fair, it is not intended to be.

I love playing this music. It gives me so many memories and a fun time to laugh along with its silliness. Most of the time the notes follow the tune of the song. If I have any trouble I just look up the song and it is so easy.

Nice selection of songs for my violin playing tween daughter.

Beautiful

Really great book. My daughter has enjoyed working with her instructor with pieces she can relate to.

I love the songs in this book and the songs are easy to play. In terms to the notations in the music, I feel like there could have been more, but at the same time it would be a good learning experience for a new musician.

This book is fantastic for the beginner violinist! It has many well known songs at a variety of levels that keep the student interested. There are a lot of fun, interesting, and some even challenging songs. If you are a fan of Disney, I highly recommend this book.
