This is a delightful collection of old and new, popular and eclectic tunes. It is in the "cheat sheet" format, ie very accessible but at the same time pretty accurately transcribed. There are some advanced songs included that go well beyond the "first 50" fingerpicking tunes a players might attempt, very worthwhile to spend the effort, though.

Great book

As advertised

I am a nonsinger who wanted instrumental versions of these songs. This isn't that. Except for a handful of instrumentals, it mostly shows chords and picking patterns for intros, then lyrics and chords for the body of the song -- no melody integrated into an arrangement. No notation. My fault, I didn't look closely enough at the arrangements. So if you're looking to accompany yourself or another singer, this should be fine, but they're not full arrangements of the songs.
