Gem Trails Of Utah

Synopsis

Updated and expanded, this classic best-seller for Utah rock, mineral and fossil collectors is filled with expert advice gleaned from years of experience. Detailed text and maps lead the gem and fossil hunter to abandoned mine dumps, desert terrain, deep canyons, pristine mountains and beautiful lakes in the search for specimens. Black and white photos highlight the collecting areas. A color photo section aids in specimen identification, and a Mineral Locator Index helps to plan a successful collecting trip.

Best Sellers Rank: #274,680 in Books (See Top 100 in Books) #71 in [Books > Science & Math > Biological Sciences > Animals > Fossils](#) #108 in [Books > Science & Math > Earth Sciences > Rocks & Minerals](#) #450 in [Books > Travel > United States > West > Mountain](#)

Customer Reviews

It's nice to have...but more disappointing than most guides. Mileages and directions are poor. Some sites were active claims (not the authors fault...but still makes those listings obsolete) but some sites I went to didn't even seem to exist !Also, prepare for A LOT of jasper and agates (usually really broken and disappointing).

Great Product!!

Accurate book

Wonderful sites to collect rocks, gems, minerals, fossils, etc. Must have if you are planning to FIND of the aforementioned items. Also, check local rock shops, usually very helpful.

this is a very informative book. many of the areas listed I know and travel to often. I did not know of the rock hounding sites listed , so I can't wait to explore them. thanks

Informative about what is to be expected at each site. Well organized. Have not been to any of the sites yet, (going this summer).

We bought this book and several others for our up coming trip. It has invaluable information in it I'm sure it will come in handy.

Outdated, but useful
