"Young ... brings the trained eye of an entomologist and an unabashed admiration for the beauty of nature to this engaging and informative account of his experiences during twenty-one years of fieldwork in Costa Rica's rainforests."-Publishers Weekly "A splendid read. For newcomers to the moist tropics, and for any but the most sated old-timers, it can be commended for an entertaining account of a locality where life is lived to the full-by all species, including the human observer."-Norman Myers, New Scientist

Allen M. Young is a curator emeritus of zoology at the Milwaukee Public Museum. He is also the author of many other books on natural history, most recently *Tropical Rainforests* and *The Chocolate Tree: A Natural History of Cacao*.

`Sarapiquí Chronicle is a thought provoking lyrical book. The updated and expanded version of the original 1991 book is even more interesting than the original because Dr. Young compares and describes the changes in the land, roads, and people of Costa Rica's Sarapiquí region. This is a must read for those interested in zoology, conservation, the relationships between plants and animals, and the culture and people of Costa Rica. Dr. Young's writing is lyrical, charming, detailed and rich in description.
