Customer Reviews

Great book about visualization. The description in the beginning as to what happened to his hand was riveting so he can write. I also appreciated hearing about Dr. Emoto's studies on water and his great acronyms for FEAR and LOVE. If you need a jump start into making your life more into the life of your dreams, this book can help.

Justin Ledford did an amazing job of synthesizing useful information to live a successful life. I especially liked his breakdown of the financial buckets in Chapter 10. It really made me take a close look at my own budgeting and where I need to sacrifice my spending in order to launch into financial wealth. Well done!

The book provides a great road map to self improvement; I've heard and read many of the concepts, but this book provides many examples along with a laser like focus on what the reader can do, starting today. As one reads the book, the concepts build upon one another and each new concept is tied to earlier concepts. This makes it very easy to understand and implement. The book is valuable for all ages.

Destined to be a classic. Simple step by step guide to having a successful fulfilled life. Justin has nailed it. His advice is indispensable - a go to book on how to make "it" happen. This is a book you have to have in your library.

You know, I really enjoy books like these that are relatable and easy to follow. Justin has such a special gift for seeing life in its simplest forms and applying life lessons to becoming a better version of himself. This book is a great guide to living a more fulfilling life not only financially but in general!

I haven't even gotten into the nitty gritty of it and I can feel a new energy coming through me as I read through it! We all have our vision to the top and by God's grace and reading this book the possibilities are endless!

If you're looking to make a breakthrough in your own life, Visions to the Top is the book you need. With clear action steps to keep you on track and an acronym to inspire: VISION=Visualization, Intention, Subconscious, Inspiration, Opportunity, Non-Negotiable, Sacrifices. Put them all together and get to the top faster.

Visions to the Top is an inspirational read for anyone who wants to be successful in their lives and maximize their potential “ and let’s face it, we all do, don’t we? I’ve read several similar books, but what makes this one stand out is that all the theories are backed up with practical advice and examples, along with the author’s own experiences. Great Job!
