Richard Rohr lives in Albuquerque, NM, USA, where he is co-founder of the Center for Contemplation and Action. His other bestsellers include Everything Belongs and The Enneagram (the latter with sales of over 250,000 worldwide).

Very interesting subject matter. Compelling, thought provoking and enlightening.

A large body of information - some insights, but really only the first step in a very big study.

This started off really interesting and then sort of fizzled out- I didn't fit into any of the groups that Rohr identified, so I kept waiting for an explanation for that- it didn't come- I could identify some people that fit in each group- but I didn't feel like this was an all inclusive list. It was, overall, really interesting.

I have read a good number of Richard Rohr's books, and am just finishing the Enneagram. It is so insightful, and useful in just understanding people you meet or family members as well as yourself. I have never been sorry I took the time to digest any of his thought-provoking works. The whole concept of the Enneagram was brand new for me, and I have found it wonderfully informative.

fun book with great insights.

A great introduction to the Enneagram though it is a bit long. It helped me to listen to Rohr's Enneagram lectures on cd concurrently with reading this book

This book does more to inform one's spiritual quest than any other text when seen as a psychological perspective for the seeking Christian.

I'm an astrologer. And I have a minor in psychology. But you will still find things in this book that will surprise you. I really enjoyed it. My church group introduced it to me. So in case you're Christian and think you don't like this stuff?
