## Customer Reviews

I think grammar conventions are the least liked but the most important thing a student could learn in an English class. Too often it can be brushed under the rug because we assume that students know the grammar. This book is for the direct instruction of the parts of speech, phrases, and clauses; it also explains how and why they are used. It's a great precursor to the Grade 9 book that takes the concepts a little deeper.

Bought this for my daughter to go along with her textbook, but it starts at Chapter 14 and states is book 2. I have yet to locate book one except from Prentice Hall themselves who want \$23 for it.

NO answer key. I wish I had realized this BEFORE I purchased it and my son completed the first set of exercises. Now I cannot return AND I cannot ensure that he learns grammar correctly. Thanks Prentice Hall.

This became exactly as described. I use this in addition to other language arts books for my homeschool curriculum. It was a great workbook. Covered everything that I needed for the school

year. I feel that it would be a great addition to any curriculum.

Great supplement for English Grammar!

Well-organized, thorough, easy to apprehend. Good value for the money.

Fast service, product as described.
