Mini-INKLINGS Colouring Book By Tanya Bond: Coloring Book For Adults, Teens And Children, Featuring 30 Single Sided Fantasy Art Illustrations By Tanya ... And Other Charming Creatures. (Volume 3)

Synopsis

Mini-INKLINGS coloring book for adults, teens and children. This is the third book in INKLINGS series Mini-INKLINGS is a small size edition - 6x9 inches - containing ALL NEW illustrations. Smaller size is easier to carry with you and each illustration takes less time to colour - perfect for when you are travelling or waiting for a doctor's appointment, or simply wish to complete an illustration faster. - It features 30 one sided fantasy art illustrations by artist Tanya Bond . Being single sided helps to make sure that the medium doesn't bleed onto the next design through the page. However I still recommend using a sheet of card under the page when you are colouring. - Please note that createspace paper is medium to thin. This book is only available in edition. - In this book you will find fairies, pixies & maidens with their adorable companions - dragons, owls, robins, hummingbirds, animals & other charming creatures surrounded by beautiful flowers and trees. - I recommend using prismacolor colored pencils, polychromos coloured pencils, Marco Raffine, Inktense. Use promarkers/copics/sharpies and other markers just for small touch ups as well as gel pens (use sheet of card under the page you are colouring) Join "INKLINGS colouring club" group on facebook to show your coloured inklings and see what others are doing:) Enjoy your INKLINGS colouring adventure!

Customer Reviews

I really enjoy Tanya Bond's coloring book series, Inklings, so when I found out that she had

released a 6x9 inch format book, I immediately purchased it. I was very happy to see many new designs and a few that are familiar. The ones that are similar to her other books have been re-done to fit the new format and feel like a new coloring experience as well. The lines are nice and dark and well-connected unlike other books where the lines fade away because the images were reduced too far. These designs feel as if they were drawn for this size format. The coloring book is approximately 9 x 6 inches and it fits perfectly in my handbag to carry around with me. The designs are detailed but not at all intricate which, again, makes them a perfect project for on-the-go. Each of the designs are titled at the bottom of the page, along with a copyright. I like the title but wish the copyright had been less intrusive. The designs feature the ethereal maidens with large expressive eyes that I have found in all of Ms. Bond's designs. I love all of the girls with their fun hats in this book. They remind me of my younger daughter who loves to crochet/knit wild hats for herself. This is what I experienced while coloring in this book and testing the paper with my coloring medium:

30 Designs of Large, Expressive Eyed Girls in 9 x 6 inch format book

2 Pages set aside for Color Tests

Printed on one side of the page

Paper is thin, white, slightly rough and non-perforated. It is typical of anything published through CreateSpace.

Glue Bound

Designs do not merge into the binding area

Book can be opened flat with a little effort for coloring

Alcohol-based markers bleed through this paper readily

Water-based markers bleed through in spots

Gel pens and India Ink artist pens create colorful shadows on the back of the page. India ink pens can spot through if multiple layers are applied.

Colored pencils work well with this paper. I can use either wax or oil based pencils and get good pigment (with multiple layers of the same color), layer multiple colors well and blend well using a pencils style blender stick. My hard lead pencils, such as Verithins, can cause dents through to the back of the page. I use a piece of card stock or a couple of pieces of heavy weight paper as a blotter when coloring in this book. It keeps ink from seeping through or dents from marring the pages below my project page.

Tanya's books are a MUST HAVE and this 3rd in the Inkling series, Mini Inklings, is no exception. This is a smaller book so it is easier (and quicker) to color. Plus the size makes it great to take with you. 30 brand new pictures to delight anyone, from the young to the young at heart. Each picture is only on one page and features delightful characters. I think once I'm done with the book, I'm going to order another to color each girl differently! In the pictures below I used several different types of pencils. Picture 1 I used FC Polychromos, picture 2 I used Caran Pablo and in the 3rd pic I used Sargent pencils (50 count for under \$10) for everything but the skin. Such a joy to color, this would be a great addition to anyone's coloring collection.

I actually received this coloring book 2 days ago, the pictures are gorgeous, the lines are clear and fine. The paper is white, medium weight, that is slightly rough. Colored pencils work well, you are able to blend without any difficulty, the pictures are one sided so I would always use a couple of sheets of paper to protect the next picture. There are two pages in the back of the book set aside for testing your colors, the pages are lined, boxed, split so there are 56 spots available. There are 30 new pictures for you to color. No repeats from the previous 2 color books. This is a convenient beautiful coloring book and if you enjoy coloring supernatural type books like me you will love this book. I give this unique book 5 big fat stars.

Damn....another new artist for me to love. That means I will have to buy more coloring books! I love the portable size of this one. They are printed on one side of the page, so no problem using your favorite medium. I fell in love with these pictures; you gotta love the big eyes and the expressions. I will definitely be purchasing the other books by this talented artist, and I hope there will be many more to come.

My 8 yr. old granddaughter loves Monster High and similar cartoons. (I personally really dislike that type of show, the characters are often mean and the girls dress like fetishist prostitutes.) But I digress, fantastical characters, fairies and magical creatures are her thing (and mine) so this was perfect. Compared to most children's coloring books, Tanya Bond's characters are more creative and sophisticated yet still manage to maintain some innocence, which is important to me. The paper quality was not all that great but I am much more aware of that than my granddaughter was! She was very happy with this coloring book. I'll buy some more mini- inklings for her, they are a really nice size for a take-a-long project in the car. When she is a bit older I'll buy the more complicated, larger books by Tanya Bond.

This is my third Inkling book. Tanya Bond's artwork is stunning. The pages are single-sided & about average weight. This is definitely a book worth buying. All of the Inklings books are!!

Love this smaller size book! Images are fantastic!

I give this book 5 stars because the pictures are adorable and I love working in pocket sized books. I did wind up returning the book however only because I'm a corny old lady and these pictures are a

bit too far out there for me. But it's a great book.
