Fiscal Aspects Of Aviation Management (Southern Illinois University Press Series In Aviation Manage)

Synopsis

Although introductions to courses in finance exist for a variety of fields, Robert W. Kaps provides the first text to address the subject from an aviation viewpoint. Relying on his vast experience; twenty-plus years in the airline industry and more than thirty years in aviation; Kaps seeks not only to prepare students for careers in the aviation field but also to evoke in these students an excitement about the business. Specifically, he shows students how airlines, airports, and aviation are financed. Each chapter contains examples and illustrations and ends with suggested readings and references. Following his discussion of financial management and accounting procedures, Kaps turns to financial management and sources of financial information. Here he discusses types of business organizations, corporate goals, business ethics, maximizing share price, and sources of financial information. Kaps also covers debt markets, financial statements, air transport sector revenue generation, and air transport operating cost management, including cost administration and labor costs, fuel, and landing fees and rentals. He describes in depth air transport yield management systems and airport financing, including revenues, ownership, operations, revenue generation, funding, allocation of Air Improvement Program funds, bonds, and passenger facility charges. Kaps concludes with a discussion of the preparation of a business plan, which includes advice about starting and running a business. He also provides two typical business plan outlines. While the elements of fiscal management in aviation follow generally accepted accounting principles, many nuances are germane only to the airline industry. Kaps provides a basic understanding of the principles that are applicable throughout the airline industry.

Book Information

Series: Southern Illinois University Press Series in Aviation Manage

Paperback: 336 pages

Publisher: Southern Illinois University Press; 1st edition (November 11, 2000)

Language: English

ISBN-10: 0809322501

Product Dimensions: 6 x 1 x 9.1 inches

Shipping Weight: 1.2 pounds (View shipping rates and policies)

Average Customer Review: 3.8 out of 5 stars 3 customer reviews

Best Sellers Rank: #591,984 in Books (See Top 100 in Books) #11 in Books > Engineering & Transportation > Transportation > Aviation > Airport #167 in Books > Engineering & Transportation > Transportation > Aviation > Commercial #585 in Books > Business & Money > Accounting > Financial

Customer Reviews

147;Fiscal Aspects of Aviation Management is an outstanding contribution to the field. There is a total vacuum in the area of fiscal management; this book goes a long way to filling that vacuum. — Henry R. Lehrer, University of Nebraska Aviation Institute at Omaha

Robert W. Kaps is an associate professor in the Department of Aviation Management and Flight at Southern Illinois University Carbondale. He is the author of Air Transport Labor Relations (also available from Southern Illinois University Press.)

Neveraas1@gmail.com used it for class. But decent book for what it is.

The book was fine; however, the company I ordered it through it took over a month to come. The book is an easier read and helpful as far as accounting books go. I would recommend it to anyone who needs to learn about accounting in the aviation industry.

Does a great job covering complex business topics.
