Customer Reviews

The book arrived in great condition, but it wasn't what I wanted--it was an introduction, but I am an experienced graphoanalyst so it did not benefit me. But the service was excellent.

This book has some very, very basic information. It does not contain graphic examples on how certain types of handwriting are supposed to look. I don't think it is worth the money I paid for it.

The information is brief but good. It took me 30 minutes to read and it covered all the basics. It's a good intro book.

This book is a really fast read. It along with a few other books would be a good place to start in order to get an overview of Graphology. Don't expect to be an expert after reading one book.
