Decent images...fun to color.

I'm not going to lie i have half this book finished. I absolutely love it! i like hows theres not alot going on but just enough also you can add your own backgrounds to the art. I recomend this to anyone who wants a good spooky coloring book.

Great choice if you want a coloring book that isn't geared to kids, large pictures-quality paper and monsters that haven't been dumbed down or sweetened up. Plus there's enough pages and line work to make the coloring worth your time. Crayons are too waxy and won't cover or layer so if you're buying this book for yourself get some colored pencils to go with it and you won't be disappointed.

Bought this for my husband. The pictures are pretty detailed, which makes for some great, and creepy coloring.

Outstanding! Hands down my favorite adult coloring book. Full of the weird and macabre. Good variety in all the different images. Its nice to see something that is really different. Hope they make more

Some of the pictured are okay but other are poorly draw.

I am so disappointed in this coloring book. The pictures are very plain and cheesy with way to much black already printed on them.

Creepy designs that gives you hours of colouring fun.
