Solitaire To Go!

Synopsis

Solitaire to Go! Explains the rules for 27 variations of Solitaire that can be played on a small table, with helpful diagrams illustrating each game. Wonderful anywhere, and especially, of course, when traveling solo! Armed with this e-book and a standard deck of playing cards, you can challenge your brain, and keep yourself entertained, wherever you go! Publisher's note: This is a short compendium of instructions for playing a multitude of Solitaire card games, from the beginner-friendly to those that will challenge even experts. You'll need a deck of cards to try the games yourself, as this e-book isn't interactive. Happy shuffling!

Did not like.

Wanted Solitaire game this is not a game.

Difficult to maneuver quickly

It hard going when one only wants a simple game of solitar to pass the time. It presents a gillion ways to play the game for thos interested in a lot of ways to play yhe game but this is not my bar. I want a game that is interesting that you can look forward when you have the time to indulge.

I haven't been out so have ,ot played it much. But it is like having a deck of cards in my pocket. Very good!The

I have never been able to start a game. What or how do you start the play?

wasn't what I wanted so I didn't care for it sorry

like the idea of being able to take the Kindle with me on a trip & play solitaire. But, I find no instructions on how to move cards. When I try different things I am moved to another game.
