# Journey To Mauritius (Lost & Found)

## Synopsis

Structured into a series of letters, Bernardin's survey of Mauritius includes a detailed description of the island's geography, and flora and fauna. Describing the closed nature of colonial society, he also provides a chilling picture of the cruelties of plantation life and slavery. Bernardin's book of 1773 "Voyage a L'Isle de France", is an early example of a walking guide as he details the sights and landscapes of Mauritius. The introduction to this volume sets Bernardin's travel account into its historical context, discussing his life and ideas as well as the hostility the book provoked when first published. It also explores the book's contribution to travel writing and its relevance to modern-day Mauritius.

## Customer Reviews

"The most remarkable parts of the book are Bernadin's descriptions of the island's slaves, brought from Madagascar to work the sugar-cane fields. Bernadin was one of the first to denounce slavery having witnessed it...a fascinating record of eighteenth century colonial life and an inspiring example of independent thought." The Tablet

A friend and disciple of Rousseau, BERNARDIN DE SAINT-PIERRE was a naturalist and influential social critic as well as a successful author. A military engineer by training, he was instrumental in popularizing pastoral fiction with *Paul et Virginie*. JASON WILSON, Professor of Latin American literature at University College, London, was born in Mauritius and is the author of books on

Alexander von Humboldt, Octavio Paz and Buenos Aires (Signal, 1999). --This text refers to an out of print or unavailable edition of this title.
