With its volumes on the expiration of a pet, the death of a relative, and divorce, it would be nice if the Lifes Challenges series wasnt necessary. But where trauma exists, there will always be picture books up to the challenge of addressing them. This --Booklist --This text refers to the Library Binding edition.

Great book for my little ones to help them understand better about daddy being away.

My wife is a social worker and unfortunately for many children in foster care this is not an uncommon topic.

Very well done. The boxed comments are good information as is the back matter. A must for all libraries. Recommended for school libraries.

The author only used 22 pages to tell a story that felt like a lot of things were left untold. The hero of the story, a bunny named Sketch, witnesses his father's arrest. The rest tumbles out like a story told by a maiden aunt. It was good. But it could have been much better.

Simple explanations...works well with children. It helps tremendously in explaining and helping children to understand. I will use it over and over...

Great book

Great book for children going through this tough experience. I'm a trauma therapist and use it for my kids at work.

Bought this as a gag gift, but it actually has some good points for kids who have a parent in jail.
