I know spanish!

It has a little bit of everything! conjugation of verbs, preterit, reflexive verbs, irregular verbs, etc. It's an extra great book to have to put in practice all the Spanish grammar. I do tutor Spanish 3 for a HS students and it's great!

this is the assigned book for my first year of continuing education spanish; very good for bringing back all of the information that used to be at the front of my brain. some small errors in usage easily corrected by our professor.

This book is awesome. Their practices are very easy and it works well with Spanish Native Students.

Of course of all the exercises you get a lot of practice for different things like word-endings/future/...Within the exercises for me unkown words were used, but with a dictionary

everything is ok and I'm learning new words. ^^

Is there a Teacher Edition or Answer Key for this edition? Gracias, Jamie

Great condition- could barely tell it was used; it arrived on time but later than I thought. Very comprehensive particularly on verb structures and vocabulary. Good

Great condition!
