Pacific Northwest Camping Destinations (Camping Destinations Series)

Synopsis

Seashores, snow-capped mountains, and visitor-friendly cities have made the Pacific northwest one of the most popular RV and tent-camping destinations in North America, and this guide directs the way to more than 100 destinations and 400 campgrounds throughout Oregon, Washington, and British Columbia. Combining the functions of a camp directory and a sightseeing guide, each entry describes a vacation spot and its attractions and recommends good camping in the area, including both privately owned and state and county campgrounds. A map is provided for each destination, showing the location of campgrounds and tourist sites, and several itineraries are provided for driving on scenic routes throughout the region.

Book Information

Series: Camping Destinations series

Paperback: 416 pages

Publisher: Rolling Homes Press (April 1, 2006)

Customer Reviews

Mike Church and Terri Church are the authors of the Traveler's Guide series and RV Adventures in the Pacific Northwest. They spend most of the year traveling in their RV or car camping in Canada, Europe, Mexico, and the United States. They live in Kirkland, Washington.

this has to be one of the most poorly organized books I've encountered. Very difficult to find information. For example, reading through the section on the coast, there are two pages on the Gorge. Frustrating. The information contained in minimal.

I like how this couple presents their information. The book is full of useful data. I have purchased

this in preparation for our journey to Alaska, British Columbia, Yukon and Northwest Territories. It does a superb job of helping you understand what to look for, where to look for it, how much things cost relative to other areas. Excellent job.

I bough thtis with the MOON bok, and am using both of them , this one is helpful with trip ideas, and the best of the large campgrounds, a very usefull book.

Having lived in the Pacific NW for many years I know lots of places for camping and RVing. I found this book accurate and very resourcefull. With rising fuel prices, we are all looking for closer to home places to "get away" and this book is a required resource to help find them, and determine their suitability. The only criticism I have is the way its organized. A little hard to find individual places since it is organized based on tour routes.
