Oxford Illustrated Children's Dictionary Flexi 2010

Synopsis

Here is a new, easy-to-use, comprehensive dictionary with over a thousand full-color illustrations, and 20,000 entries. The Oxford Children's Dictionary boasts a number of features that make it an ideal reference work for young children. It offers crystal clear definitions, which include pronunciation guides for difficult words (such as guerilla or ricochet) and up-to-date example sentences that show how words are used in context. It has an attractive layout, with headwords in color and numerous illustrations on every page. There are usage notes and no confusing abbreviations-parts of speech and inflections are written in full. The Dictionary also includes panels on word origins and words in the same family, all designed to help encourage the accurate use of language. Finally, the Dictionary includes an informative introduction and key on how to get the best out of the dictionary. With a colorful, family-friendly format and broad coverage of the types of words young people will encounter, Oxford Children's Dictionary is a must-have resource for every home library.

Customer Reviews

This volume was compiled by Oxford University Press.

I needed a child's dictionary with British spellings for preparing children for the British school system, and this is it. The definitions are easy to understand even for a young ESL student. The pictures, while obviously there isn't one for every definition, are very helpful. For example, my

student recently looked up "trumpet", saw the picture and immediately recognized what it was. They have added the alphabet in little, different colored blocks along the side of each page and color coded the tab for each letter to match, making it easier for a child to find the correct area of the dictionary more quickly. What more can I say? British spellings, pictures, easily intelligible definitions, a good sized book, quality paper, and ease of use. Just perfect!

Beautiful illustrations.

This has been a great dictionary for my son to look up difficult words. The font size is terrific, the illustrations are great. We're very happy with it. A great introduction to dictionaries.

Good book

A terrific edition to the library for the kids. They easily find words in this dictionary with its clean lay-out, the definitions are sound and are written at an appropriate level, and the color illustrations are helpful. A clear winner from Oxford, especially at this price point.

Very good experience

Very limited. Not a useful tool, more to look at pictures. Poor purchase.
