Customer Reviews

I purchased this book for my little cousin who recently got into Minecraft, and I gotta say, he is quite pleased with it. The story line is really well-written, thoughtful, imaginative, and it kept him engaged from the beginning to the end. The story also contains a really important piece of advice that every child should hear: It's ok to be a little different, that's what makes us all special. If we were all the same, the world would be a boring place.

I downloaded another book from this author because I really love reading the first one and my kid ask for more. This one is all about the help that Steve offers to his neighboring village who needs help in building it. The story showcased how an individual can offer help specially on situation where it is really needed. I liked how the story flows and most specially the ending part of it. My kids told me that she learned a lot from reading this one so I am looking forward to download another book here.

This book is attractive for kids especially and for me as well as it is well written and easy to understand the story. My daughter loves it with all the amiable artworks and imaginative storytelling. This book is certainly another height of Minecraft games. Although I am not a kid but still this book was fun read to me as well. Very exciting and attractive story, full of twists and turns and unforeseen conclusion.

Minecraft Steve is really famous because of his building skills and it seems he wants to expand the fame beyond his village, The only problem is it looks like he can no longer handle his status and this is becoming a problem because of being selective with the people he attends, and he is tested when his village urgently demands his skills.

I enjoyed reading this book. It is about minecraft Steve's adventure. The book is about building a village but there is a story behind it. I followed his adventure from building his own village and that of the neighbor. There are tricks that I find helpful. There are scenarios that are hilarious. I had fun.

Minecraft Steve is great at building and wants to grow. Faces various challenges in doing so. A highly entertaining, well-structured book. I'd highly recommend.

#NoSpoilersAlert#SpillTheBeansOk, so steve goes to this underground village and he hesitates to help the village because of racism(no jk)- I mean he thinks the villagers are strange and he left his

friends to do the job because one of them is a builder but then the village is sinking as steve decides to go back justin time. steve fixes the problem and he finds his small city on fire and suicides.(besides the last part all of the above is true without any spoilers alert.)U mad readers?U mad people who want to save the excitement for the best?U mad Dude89?Spoiled much?Trolled much?You mad kindle users that need to scroll down for this review?U cannot escape trolls. We are in the same world!Whut

Yes, its me, Dude89. I'm back to review this book after reviewing last book. Don't really want to "spill the beans", but at the end of the book when returning home, Charlie could see smoke from the village! OMG I CAN'T WAIT FOR NEXT BOOK ITS GOING TO BE SO EPIC!!!!!!! I would highly recommend this to Minecraft lovers. Get it on your Kindle for \$0.99 or for free with Kindle Unlimited. And sry for any spelling mistakes!~(ÅfÂ Ä Ä¿ Ä£ ÄfÂ¢Ä ª ¬Ä ä ç ÄfÂ Ä Ä¿ Ä Ä£ ;)/Dude89
