Russian Picture Word Book: Learn Over 500 Commonly Used Russian Words Through Pictures (Dover Children's Language Activity Books)

Synopsis

Here's a fun-filled book for young Russian speakers and at the same time, an easy, effective way for students of Russian to build and strengthen their vocabulary skills. The book consists of 15 common scenes (14 double-page and one single-page), each devoted to a different theme or topic: picnic, on the farm, classroom, living room, bathroom, kitchen, at dinner, supermarket, at the beach, my town, at the zoo, at the park, vehicles, and more. Each scene contains dozens of familiar objects, all clearly identified by Russian words. By studying the pictures, students can learn over 500 terms for a variety of household items, clothing, foods, furniture, animals, parts of the body, types of stores and public buildings, and other subjects. To help reinforce words and meanings (and for more fun), all scenes can be colored. In addition, a complete list of Russian words and their English translations is located at the back of the book. Altogether, the result is an attractive and useful language resource that will appeal to any student of basic Russian, child or adult.

This is a great learning tool that doubles as a coloring book. However, there is no pronunciation help. I have had no Russian language training and bought a few books to help myself get familiar with the language. Unfortunately, this book will be useless until I finish memorizing the alphabet

sounds.

This book is cute, but it will NOT help you learn Russian words, unless you know Russian. The book has no color, like a coloring book. We speak English so obviously cannot pronounce the words as there is no phonetic spelling or the like. It should be advertised as a Russian Childrens Learning Coloring book.

The print is very small and a faded color. I find it difficult to read. I wish it had the English translation and word along with the Russian word. It is sometimes difficult to see what the word is describing. Not a good teaching tool.

Look, the Cyrillic alphabet isn't that hard to learn. I just watched a video on YouTube several times and learned it in a couple of days. You can also just go on google translate and see where the accent of each word is. I like that this coloring book doesn't have pronunciation suggestions using the Roman alphabet, because those are a crutch if you really want to learn Russian. What I have done with my daughter is practice each word, and then when we have the word down we color it in. We are also using other resources to learn other parts of speech (this book just has nouns) and grammar, including the declensions of the nouns we learn in this book. (You have to do that unless you just want to know how to point stuff and say the names). This book is such a fun component of learning Russian. Highly recommend.

Good simple way to expand your vocabulary of Russian words (even for adults). The word list in the back is helpful. You will need to know the Cyrillic alphabet to understand pronunciations.

I have a grandson who is learning Russian. This is a big hit with him! I have a grandson who is learning Russian. This is a big hit with him!

We are part Russian... This is a fun way to learn.

Not worth anything. The words were so pale and difficult to read. Larger, darker font would have been helpful as well as the pronunciation below the word. My First Book of Russian Words by Kudela is a much better choice!!!
