Customer Reviews

Thomas M. Socha has a Master of Science in Hazardous Waste Management from Wayne State University, Detroit, Michigan. Mr. Socha is employed at People Technology, Inc. an environmental consulting company located in Rochester Hills, Michigan as Senior Project Manager.

I found 10 typos & usage problems in the first 4 pages. This book couldn't have been edited by a professional. This is the worst example of shoddy editing and proofreading I have ever seen. Here are just two examples from page 15: "Checklists on what information should be gathered and can be located in Appendix B." The next sentence reads as follows: "Remember, the custodian is limited by time to complete the report it is usually 20 days from the site-visit to the submission of the report." It appears that it was written and edited by a non-English speaking person.

This is not a comedy but you will laugh. There are so many typos in this book it is crazy. Besides that a great book with great info. This book will help you write a professional looking Phase I Assessment. It will also guide you thru everystep leading up to and presentation of the assessment to your client.

The man, the myth, the legend. This young chap covers the environmental world like nobody else! Good work!! This book is a must in every Americans' collection!!
