The ultimate dehydrator recipes for anyone like me who loves to dehydrate snacks and meals. Even if you are a dehydrator enthusiast like me, you are bound to find some new ideas in this 100 recipe cookbook

Good Read

Just down loaded it, can't wait to try it with my new dehydrator.

This book has everything you need for dehydrating and what to do next. Great information, directions, and recipes. Will be my go to dehydrating book. It's clearly written, covers any food you would ever want to dehydrate, and the recipes are a fantastic bonus! This book will definitely accelerate my passion for dehydrating.

The dehydrator is perfect for preserving food or making fun, portable snacks that you can take with you on a day out instead of wasting money buying less healthy food when you are out. The kids love the dehydrator and this cookbook gives us a huge collection of all kinds of different recipes we can make. The sheer quantity of the recipes in this cookbook are impressive but what really stands out is the quality. If you have a dehydrator then this is the book you've been waiting for. If you don't have a dehydrator, pick one up! They are versatile appliances that you'll wonder how you lived without.

I bought my dehydrator strictly for the purpose of preserving seasonal food so I can enjoy it year round, but with this cookbook I actually found so many other uses including entire meals that I can prepare with my dehydrator. I honestly had no idea the dehydrator could do so much and I recommend this cookbook to anyone with a dehydrator in the house.

This book gave me so many great ideas for dehydrating food. I was getting a little bored of the typical beef jerky and fruit leathers that everyone with a dehydrator makes. Fortunately there is more to the dehydrator. Much more! I'm making full meals that no one would guess could be dehydrated and stored for months. Awesome book!

Whether for camping or hiking, or to stock your pantry with seasonal foods - you will love having dehydrating as part of your repertoire. Significance of drying foods (which I recently bought a food dehydrator): reduce spoilage and increase food storage life. Keep in cool, dry location to protect storage life. Removes weight and easier to carry; camp food and for hikers; and preservation.
