# Tell No One

## Synopsis

Critically acclaimed, best-selling author Harlan Coben has won the Shamus, Anthony, and Edgar Awards during his impressive career. *Tell No One* is an irresistibly suspenseful thriller infused with nail-biting tension and packed with shocking plot twists. It has been eight years since Dr. David Beck's wife, Elizabeth, was murdered by a serial killer. When Beck receives a message containing a phrase only Elizabeth should know, he is tormented to tears. Either someone is playing a sick joke, or the wife he's never stopped loving is still alive. He's been warned to tell no one, and as the desperation of his search for the truth intensifies, he heads straight toward a deadly secret. Coben tempers the drama with dashes of sly humor and a cast of unforgettable characters, including a bare-handed assassin, a glamorous plus-size model and a drug dealer with a soft spot for Dr. Beck. Listeners will relish Ed Sala's exhilarating narration.

Best Sellers Rank: #14 in Books > Health, Fitness & Dieting > Diseases & Physical Ailments > Alzheimer's Disease #51 in Books > Audible Audiobooks > Biographies & Memoirs > Entertainers & Celebrities #76 in Books > Medical Books > Medicine > Internal Medicine > Neurology

## Customer Reviews

I really enjoyed this book and learning more about Diane Keaton's past and her mother and family. She's always been somewhat of an enigma for me. It's a quick read for me and it was enjoyable. Thank you!

Diane Keaton is not only one of my favorite actress's but now she is one of my favorite authors. This is a beautiful story of she and her mothers relationship, her insecurities growing up and her journey of finding her place in the world. Interesting all the way thru and very touching as she shares her

mothers life-long writings and her descent into the horrible disease of Alzheimers. This is a must read and I have already purchased her new book because I enjoyed this one so much.

A beautiful collage of thoughts , memorable and lovable moments . Inspiring and riveting, your eyes cannot stop chasing the words on the page as your heart dances to the beat of every single moment of bittersweet discovery . Yes, Diane you have a voice !

I loved this book! Cover to cover. I have always like Diane Keaton, as much as anyone. Didn't know a lot about her, just what I have seen in her most recent movies. I saw her on Ellen and loved her. So I bought the book, really having few expectations. She is so human. So lovely. So insecure, scared, sensitive, flawed, just like everyone. And her mother, wow, the respect and love that she has for her mother was so heartfelt and really touching. I love her views on life and love and loss. She made me want to embrace my flaws and strive to be a better person all at the same time. Thanks, Diane, I needed that.

Reading Diane Keaton's memoirs was very poignant as I grew up in the same era within miles from her hometown. Her descriptions of the times and mores of the people and places was so heartwrenchingly real and honest. I have now found respect for this actress in the way she chose to tip toe around judgement but still tackle some dicey depictions of the people and the roles they have played in her life. She should be proud of the legacy she continued to pursue based on her own mother's penchant for documenting her life. Bravo, and what a great example to show to her two children..thanks for sharing.

I loved learning about Diane Keaton and her mother. Diane's personal struggles became very real to me and it was amazing to find out that she just seemed to stumble through her life, while becoming incredibly introspective and popular with the media. That is part of her charm. I feel that this memoir is one of the best I've ever read and I am positive that Diane now looks and feels better than ever before in her career. I definitely recommend this book to anyone who loves memoirs, like I do.

This really brought me into her life. I have always been a fan of Diane Keaton. Such movies like, The Godfather trilogy, Something's Gotta Give, The Only Thrill, and The Family Stone, make me appreciate her as an artist and find her very eclectic on the screen. This book had so much info.

and enjoyed reading it all the way through!! I love the fact that she was expressing the relationship between her and her mother. It goes to show you about appreciating the now and those that have always been there for you=)

I really enjoyed this book. DK is such a fascinating person. Her life, equally so. I would read this book again.
