Bought this as part of the Build Your Library kindergarten curriculum. Wonderful book for any home library!

Ordered fro someone else

I really love how it talked about all the countries in Africa

I love this book and all it presents. It's easy to read and my son loves it! I love the varying perspectives in the story.

When my daughter attended a five day camp "Olympics Around the World", each day they reviewed a "country" Japan, Great Britain, India, The United States and Africa. All too often, Africa is treated like a country. This refreshing book reviews the lives of children from different African countries. A map is also included and one is able to locate the various countries. My 5 year old son and 8 year

old daughter enjoyed trying to find each country. Each page also has a beautiful illustration of children in every country. This is a wonderful book to have in any child's collection.

I bought this book for my niece and nephew but found it interesting to read myself. Africa is made up of so many different countries, cultures, people and ways of life. It's high time the rest of the world stops grouping it into one, the only way to do that is to learn more about it. Every child should read this book. (And plenty of adults!) The illustrations are quite lovely also.

This is a great book, even for older kids. It takes you to many countries and shows many families in the course of a typical day in their lands. The illustrations are beautiful. Readers of all ages will enjoy this book.

Because it goes through all of the Countries in Africa one by one there is no way you can miss the diversity of people and places on the continent. Highlights are given for each from many angles.
