# Mel Bay Cello Method

## Synopsis

A wonderful new edition of our Cello Methodbook which teaches the beginning cello student everything they need to know. The book starts with Seating and Bow Hold, then covers all the details of the Language of Music, reading, writing and playing. Cello Method follows with Extensive Bowing Exercises and Stretch Position with Thorough Instruction and Material all the way through Shifting to 4th Position. Enchanting New Songs and Old Classics follow and are mixed with Detailed Explanations and Many Bowing Exercises to Create a Beautiful Sound with the Bow. Cello Method has three different levels of bow instruction with bowing variations, exclusive to this method book only.

## Customer Reviews

This is not exactly a complete "method," as it does nothing to help a beginner to be sure the cello itself is set up properly and playable, and it contains advice that many would disagree with (such as how to shape the fingers of the left hand when playing). It has the look of something published maybe twenty years ago and now recycled as a "method." There are the usual large number of incorrect or poorly-worded statements, which can only confuse a beginner. I would have liked this book better if a cello-playing EDITOR had had a hand in getting it into published form.

Mel Bay books are great and this is no exception. Thorough explanation of the basics that will allow you to play what you want
