Customer Reviews

I was expecting this to be tailored to lawyers who wanted a quick guide to NY Entertainment law. What I received was more like a quick guide for a garage band.

I absolutely disagree with the first reviewer. This book is EXCELLENT and is exactly what it says it is. It provides an overview in broad strokes about the different areas in entertainment law and where an attorney would be of service. The author also provides practice tips in each chapter to assist attorneys visualize real world scenarios and how to handle them. If you're looking for an in-depth treatise on music law, copyrights, etc., then obviously there are treatises and books out there that serve that purpose. This book, however, provides a general practitioner with enough information to have a conversant knowledge of entertainment law, and should be used as a starting point in learning about it.
