System On Package: Miniaturization Of The Entire System

Synopsis

System-on-Package (SOP) is an emerging microelectronic technology that places an entire system on a single chip-size package. Where systems used to be bulky boxes housing hundreds of components, SOP saves interconnection time and heat generation by keep a full system with computing, communications, and consumer functions all in a single chip. Written by the Georgia Tech developers of the technology, this book explains the basic parameters, design functions, and manufacturing issues, showing electronic designers how this radical new packaging technology can be used to solve pressing electronics design challenges.

Book Information

Hardcover: 785 pages

Publisher: McGraw-Hill Education; 1 edition (May 6, 2008)

Language: English

ISBN-10: 0071459065

ISBN-13: 978-0071459068

Product Dimensions: 7.7 x 1.4 x 9.5 inches

Shipping Weight: 3.2 pounds (View shipping rates and policies)
