Customer Reviews

McDougal Littell Earth Science Student Edition Grades 9-12 2005

This is a great buy for someone as myself that home schoolsIt covers all the areas of Earth Science and it does not bore my 14 year old daughter. This is not her favorite subject but she finds the book is a good read.I think the book does a great job covering all crucial information and presents itself in a very organized manner.Still a great buy in 1/2014

Nice condition
