Customer Reviews

This was by far the best supplement I used in law school. It is a must for anyone who wants to do well in Family Law or who wants to practice. This will be in my office and used for years to come!

I own several books in this series and often find them helpful to supplement the casebook. The questions and hypotheticals posed by this author frequently come up during class, so I feel more prepared to respond to the prof. The reading is quick and straightforward.

detailed explanation and examples

Good, easy supplement.

This is one of the best books I have purchased.

excellent

Works well for teaching a class.

The book is great for class with the exception the publisher did not provide page numbers, unless I missed something? I even updated my mac with the new update and was not able to get the page numbers. I read a few post in the forums and it all made sense that the publisher did not provide with the page numbers. I am taking a course and the instructor gave page numbers to look at, now it is hard to quote the page in a essay without purchasing the whole book again paperback. My suggestions to the publishers, they should always provide the page numbers especially when you have more student purchasing their books electronically for classes. So they do not have to carry the bulky books around; isn't that the purpose for e-readers? Can we please fix this minor issue!?
