Customer Reviews

I Loved this book! Everyday life examples help make the theory accessible to everyone. The text is clear and easy to understand. The cartoons sometimes made me laugh out loud. I'd recommend this book to anyone from teen to 80 who'd like an introduction to this topic. Introducing Game Theory: A Graphic Guide

Though marketed to reluctant readers whose worries are supposed to be taken away by all the cartoonery (my word, I invented it), this book consists of difficult content with illustrations that only occasionally hit the mark and enhance the text. The "Very Short Introduction" series does a much better job of encapsulating a library of material into digestible bites.
