Synopsis

There are three simple questions that determine whether you should listen to this book. Have you ever wanted to know why every man in the porn industry has a bigger penis than everyone else? Have you ever felt self-conscious about what your partner will think about the size of your penis? Do you keep telling yourself that size doesn't matter, but deep down know that everyone would rather have a bigger, longer one? If you answered yes to any of those questions, then you need to listen to this book. There is just no way around it. Size is king. Most women and men would prefer their partners to have a big penis than a short one. Have you ever wondered why it seems like only a few lucky individuals seem to be naturally blessed with a thicker, stronger, longer penis? Is it just genetics or is there something else at play? Don't underestimate the effect that having a bigger penis size can have on your confidence, inside and outside your sex life. A bigger penis is considered to be one of the ultimate status symbols that a man can have. Men with size have a definite aura of confidence that shows up in every area of their lives.
