Daily Math Practice, Grade 5

Synopsis

Provide your fifth-grade students with 10 to 15 minutes of daily math practice specifically developed to meet Common Core! The frequent, focused practice improves math skills, and each title includes downloadable homeschool connection activities. How it works: Students complete five short math problems on days 1-4. The day 5 activity provides more extensive practice and asks students to think critically. The 36 weeks of grade-specific skill practice covers: Operations fluency, Fractions, Decimals, Algebraic reasoning, Measurement and data, Geometry, and Word problems. This series also includes: models and tools to aid students in solving problems and answering open-ended questions, critical Common Core proficiencies for each grade level, downloadable math activities and projects to offer reinforcing practice at home, and a detailed scope and sequence chart to help teachers map units to correlated skills.

Age Range: 10 and up

Grade Level: 5 and up

Customer Reviews

Such a huge help and this is great for morning work if.

I love it, though my son is not very motivated by it! He resists less because the problems are presented in short sprints!

Using this with my Adult Education classroom. They seem to like doing the problems.

My son is a 3rd grader who loves math and he does this 5th grade book easily. It is great for him to review or preview some basic concepts. He can do 2-3 pages daily for about 10-15 minutes and it is a good practice. I will buy 6th grade book later for sure!

Easy review of many concepts and operations. Perfect for daily homework or to get the day started. Helps students recall previous skills quickly for review.

Excellent book providing students quick means of reviewing math skills. I love how the students are able to chart their weekly progress.

Very good for daily math practice

This is an excellent resource for classroom teachers. Book is organized nicely by day of the week - Terrific for 'Morning Math' warm ups - or a quick addition to homework.
