## **Customer Reviews**

Author Profiles Eric Shamus, DPT, PhD, CSCS has taught national and international continuing education courses on Orthopedics, Sports Medicine, and Manual Therapy, with a focus on documentation and reimbursement. He is presently a professor at Florida Gulf Coast University and works at an outpatient orthopedic facility in Fort Lauderdale. Debra F. Stern, PT, MSM, DBA is an Associate Professor at Nova Southeastern University in Fort Lauderdale, FL. She serves as a clinical instructor with a focus on geriatrics, neuromuscular disorders, and also coordinates service learning experiences for the school's PT department. She received her BS in Physical Therapy from SUNY Buffalo, her MSM from Rollins College, and her DBAS at Nova Southeastern.

If you're a PT student you need this to help you understand how to document. Which as a SPT you will be doing for hours in internships, so might as well learn now and be able to take less time on documenting.

The book looked new and has great explanations. Great for students or entry level physical therapists. I would recommend this book to people.

It is good for the beginner but not for anyone in the field for awhile

Good price

The book came quickly, It was in decent shape, I wouldn't call it like new, but it was worth the money I saved.
