25 Leprechaun Patterns For Carvers

Synopsis

Leprechauns are some of the folk-lore creatures that have always fascinated the author. He claims that he once caught one, just long enough to sketch him for a carving. Now Al Streetman shares 25 of his leprechaun patterns with other carvers who may not have been so lucky. In addition he shares many of his tricks and carving secrets in clear photographs and captions. The methods he uses and teaches will give the reader some new insight into character carving techniques, and will make carving easier and more fun. After you get a few carved and painted, they will make a colorful addition to your carving collection. Leprechauns are also popular with buyers and collectors, which is a good feature if you plan to sell any of them.

Customer Reviews

Al Streetman currently resides in Guthrie, Oklahoma, and has been an active woodcarver for many years. He originally carved shorebird and duck decoys. Today, his work is centered around Santas, Cowboys, Uncle Sam, Elves, and other forms of caricature carvings.

I sell wood carvings and the store owner asked for St Pat day carvings. The photos and items in the book triggered some ideas of my own...therefore yes, it was very helpful to me.

If you're looking to carve some of the wee people, then here is your book. One leprechaun is carved step by step, then painted. Patterns for 24 more are provided so you can make a whole leprechaun

colony, if the mood strikes you. Lots of photos, and plenty of information about carving tools required and suggested paint colors.
