SET ~ The Outsider: The Outsider

Synopsis

'This book has taken 20 years in the writing... but Set has waited 5,000 years to tell the world his side of the story'. Drawing together from scholarship, religion, art and magic Judith Page and Don Webb have added considerably to the unfolding understanding of the figure of Set. Originally situated in the Egyptian culture the god Set has seemingly torn himself loose, finding an improbable contemporary interest and adherents. Rather than deny any of the attempts to apprehend this re-emergence of Set, Page and Webb have integrated, contextualized it, and most importantly given methods for you to create even greater meaning from this highly variable, mysterious and overpowering god. James Fitzsimmons ~High Priest of Set "This is an extremely interesting, thought-provoking and inspirational collection of essays and articles on Set by Judith Page, Don Webb and others. Here are diverse approaches to the deity, ranging from the contemplation of historical material through to considerations on meditational and magical working. The collection is profusely illustrated by examples of Judith's striking artwork and many historical diagrams and drawings that convey a wealth of information. A very absorbing and enjoyable read; and one which I would heartily recommend to anyone interested in finding out more about Set." Michael Staley, Starfire Publishing "Behold, I am creating everything anew" Another landmark in the rise and rise of Egyptian Seth. Both authors are well-known advocates and devotees of this now, not so hidden god, whose influence on the modern occult revival is difficult to ignore. Co-author Don Webb, calls this his "religious text" and what is on offer is a complete survey of the historical and mythic-field together with extended liturgy and rites, some reconstructed from ancient sources, some created anew. The book is illustrated throughout by Judith Page, who has also re-drawn many famous images or vignettes for the collection, together with informative essays, crucial topics for the mythos. I was particularly struck by Don's admonition that this book is for the hopeful; an antinomian stance on a polluted and troubled world. Despite which, a life affirming Seth is at work behind the scenes, creating wealth & reducing poverty ~ Essential stuff. Mogg Morgan author "Phi-Neter: Power of the Egyptian Gods" • Black & white Special edition:

Customer Reviews

An excellent book on the Egyptian God Set. He is usually portrayed in a negative light. A brother to the God Osiris, and his killer also. To most people, Set is an evil God, to be feared. This book opens the past where the God Set is shown as a God who can be approached & ask for his help. Set fights at the side of the Sun God Ra, keeping Apophis at bay. Without giving anything away, the reader will come to know Set as the powerful God he is. His struggle with Horus, Osiris son, is highlighted. Was Set wrong to seek the throne of his brother Osiris? Is Set necessary to have the good vs. evil balance within the Deities' pantheon? Read the many untold stories & experiences people have had in their devotion to him. I myself have had my view of the God Set changed after coming to know him throughout the years. If you are on the fence about who the God Set is, please read this book. It represents a wealth of sacred knowledge on the Egyptian God Set, and decide for yourself. He is known to be a God of the desert, storms and chaos. But within the pages of the book, he is much more. The Pharaoh Seti I must have known what a God Set was, for he took his name.

Excellent and insightful book. Well researched information within the book.

I bought it through the CreateSpace portal; I wanted the special color edition. And, from the cover to the meticulous formatting and Judith Page's art to the historical references, this book hits all the right spots. It has both objective historical research and religious, meditative and practical work for all kinds of readers. Some of the hard archaeological and anthropological stuff, plus reflections on what these mean in the context of modern cultures. I won't lie - there's one chapter I wasn't terribly excited about. But there's so much packed in, I don't feel that I'm missing much by leaving it aside for reading through some other time. Well worth the price to me.

One of the greatest books for reference of facts about Set. Delightful read too with great illustrations. Don't hesitate, buy today!
