Overcome Relationship Repetition Syndrome: Why We Continually Repeat Toxic Relationship Patterns

Synopsis

Do you find yourself continually repeating the same kind of toxic relationship patterns? Do your relationships feed your soul? Is your relationship blissfully happy, loving, delicious, passionate, and filled with joy? If not, why? If you find instead that your relationship is filled with disdain, mistrust, anxiety, stress or jealousy, then you may need to re-examine why you're in it in the first place. Although the term Relationship Repetition Syndrome may be a new one to you - I'm sure that the idea of continuing to repeat the same toxic relationship patterns is certainly not a new idea for many of us. Love is one of the most challenging but rewarding emotions known to man, so it makes sense that many of us struggle with it. Overcome Relationship Repetition Syndrome is the third book in the Creating Your Own Reality series. If you have ever wondered why you continually repeat toxic relationship patterns, this book can enlighten you so you may find the answers you need.

Customer Reviews

This book, Overcome Relationship Repetition Syndrome, is very well written and definitely worth to read to many of those who were not lucky to find his/her true love for lifetime. The author gives a real life story of a toxic relationship and how this repeated with the same mistakes; why this happen; about important discoveries inside of us, and steps for healing.

This is one of the more helpful relationship advice books I've read. The author talks about how we all have a tendency to repeat negative behaviors in our relationships, whether it be the partners we

choose or the ways we act within the relationships. There were a lot of points that I think will be really helpful to remember to keep my marriage happy and healthy. Highly recommended, whether you're single, in a casual relationship, or in a committed relationship!

This is really a very nice ebook that you will learn a lot from. I have read it twice already. It contains many practical tips on creating your reality and overcome your relationship repetition syndrome. Highly recommend it

I gave this book five stars because it provides excellent insight to why toxic relationships exist and exactly what the process is to start healing

Didn't care for this book and the information was very repetitive throughout which as disengaging for me.

This is very interesting book. It is well written and worth reading for. You can learn from it and you can apply it in the future.

This book doesn't help over come anything, though it does give you little tasks to do. Don't bother.

(Downloaded from .com.au) I like this book because it is well written and helpful. The author has put extra efforts in writing such a masterpiece. The quality of material of this book is worth more than its price. This book is not written from a doctor's perspective - it is written by someone who understands that thoughts become things. As a Clinical Hypnotherapist with a master's degree, Leslie Riopel has seen her fair share of people who continually struggle with one thing or another. Easy to understand content for everyone. From me, I will definitely rate this book and the author's efforts a 5-STAR. I highly recommend this book to everyone.
