Customer Reviews

We got this book for our almost 3 year old prior to our beach vacation. I was surprised by how short it is! In pages and very few words per page!) Some of the Dora books seem to stretch on FOREVER, but this one is completely the opposite. The illustrations are fun, the content is ok. Not quite worth the money contextually, but the book is sturdy and well made for the toddler set.

I downloaded "A Day at the Beach" for my 3 year old granddaughter. It's so nice for her to request I read it to her instead of playing a game. A good amount of things to look for and different colors to find as well as a short story.

2 year olds loved it and requested it be read over and over. Some word choice and picture relationship could be better. Great to have Boots Beanie-Baby and backpack with it.

This book was a bit of a disappointment. It was too short and didn't follow the typical story

sequence. Seemed to jump, with little transition from one page to the next.

my granddaughter loves Dora and Boots . she is 4 years old and watches and reads about Dora and Boots a lot.

My granddaughter liked it at first but she got bored with it really fast. I think it's because it has to be read to her.

This is a cute book and my son likes it, but I was a little disappointed in the length. I was thinking it was going to be a longer book for the price.

The toddler loved it. We have to read it over and over.
