The Complete Idiot's Guide To Solar Power For Your Home, 3rd Edition (Complete Idiot's Guides (Lifestyle Paperback))

Synopsis

All the power you need is already there. This third edition helps readers understand the basics of solar (photovoltaic) power and explore whether it makes sense for them, what their options are, and what's involved with installing various on- and off-grid systems. "Solar power is a \$3 billion industry, and it's poised to grow to \$39 billion by 2014 "By 2011, the United States will surpass Germany as the largest market for solar power products

ISBN-13: 978-1615640010

Product Dimensions: 7.4 x 0.8 x 9.1 inches

Shipping Weight: 1.2 pounds (View shipping rates and policies)

Average Customer Review: 3.8 out of 5 stars 20 customer reviews

Best Sellers Rank: #931,482 in Books (See Top 100 in Books) #77 in Books > Engineering & Transportation > Engineering > Energy Production & Extraction > Alternative & Renewable > Solar #1727 in Books > Crafts, Hobbies & Home > Sustainable Living #2285 in Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Design & Construction

Customer Reviews

DAN RAMSEY is the author of more than 20 books for homebuilders and buyers, including builder's construction guides, contractor business guides, kit home construction, and homeowner remodeling and repair books. He has extensive remodeling experience and has also served as a successful real estate agent. Dan recently supervised the design, siting, construction, and move-in of a new home in northern California.

Not as much of a DIY guide as I was hoping for. More of a figure out what you can use, what kind of system you want, and how to hire a contractor, guide. Okay for that though, if that is what you are looking for.

The book was for my grandson !! He is pleased with it

A little over my head.

too complicated and unclear

Arrived on time and item as described.

A bit technical but worth the read.

Great reference tool! Excellent starting point!

Our next house will be off the grid, a lot of practical information and more importantly how/where you can get it done.
