Customer Reviews

The title of this book basically sums it up nicely, and it does exactly what it intends to do. So far, since it's not like a book that you would read all the way through, usually) I love the book and it has everything I needed, I got it at a good used price and it was VERY WELL worth the money I spent on it, though I don't know I would have paid the full used price. But anyway, it's a GREAT book for any herbalist! I def recommend.
