My daughter started drawing her own music pages this fall so I thought she'd like some actual composition paper. After the first book came, I ordered two more. She loves them! A great value for a great product.

I bought this as a gift but its a nice little book. A little thin but a quick glance at the specs/page count would've told me that. I think he'll love it but on the off chance he totally hates it I'll update the review.

I love this staff paper because it lies flat and the staffs are large and legible. I wish there was a book like this with more sheets in it.

This book allows student to practice drawing notes, etc. Perfect for my children's piano lessons. I should have purchased a few more as I see this book getting filled up pretty quickly.

Great for a young student who would like to try writing his own music or practice transposition exercises.

Just the right size for my beginner composers at the piano. Love the spiral and paper quality!

This is the second year in a row I've purchased this item as part of my daughter's back to school list. She loves the fact that it is a spiral notebook. Definitely recommend.

nice quality item....hard to find locally....
