## Customer Reviews

Great!

The book followed along ok but when it came to the practice exam several of the questions had all four answer options the same. Lots of typos. I had to stop using the book all together.

arrived in great condition

very basic book. good to go with a learning program not great alone. good graphs and visuals and sample questions

Please don't waste your money and here's why. This book does not provide enough information on Workers Compensation, Automobile Insurance, Commercial Package Policy or Dwelling Policy. Its simply not enough information to help you pass an exam. I highly advise that you purchase a book that relates to your state and not these poorly explained books. Good luck!

This book is horrible. It is riddled with spelling and grammar mistakes, several of the final exam practice questions had the same response for each multiple choice, and several of the questions asked did not correspond to ANY of the material presented in the preceding chapters. Took me too long figure this out after making it to the end. There are much better products out there. Avoid this one.

save your money. All Main points with NO details. Will not help you pass this exam
