Lo Scarabeo's Tarot decks have been acclaimed all over the world for originality and quality.

With the best Italian and international artists, each Lo Scarabeo deck is an exceptional artistic value. Committed to developing innovative new decks while preserving the rich tradition of Tarot, Lo Scarabeo continues to be a favorite among collectors and readers. Llewellyn is the exclusive distributor of Lo Scarabeo products in North America.

I own clay runes from The Book of Runes: 10th Anniversary Edition, but a recent encounter with high quality wooden runes from Animal-Speak Runes make me consider that it was time for me to own a wooden set of Nordic Runes. Even as previous wooden rune sets from Lo Scarabeo had earned low ratings from reviews, I jumped blindly into this set. Well, I can report that I'm glad I did. These runes are bigger than the Animal-Speak Runes (about 1.25" x .75"), but still light weight. With their slightly rounded edges, these runes have a great high quality feel. Beside the runes, this kit includes a small booklet and a red velvet bag. The booklet is written in five languages: English, Italian, Spanish, French and German. It describes two methods on how to use the runes, and

includes descriptions for each rune: Rune name, time period, key words, and brief phrase. The included red velvet bag sports a brown stamped Raido Rune in front. The bag closes shut by the pull of two draw strings and is stitched at one side. However, it is not inner lined, but it should provide good protection to the runes. It seems a good combination of elegance and sturdiness. In all. I'm very satisfied with this kit.

I had a hand made set years ago which served me well. However I wanted another set of good quality wooden runes, and decided to try these. The small red bag is a perfect size for the stones and looks wonderful. However, upon inspection, red fuzz easily comes off the outer surface, and would be something I'd have to constantly clean up after. Into the trash it went, along with the packaging, which was well made and looked good. The Runes are a nice quality, 25 pieces, 2 of which were blank. Also the Hagalaz rune is marked in a shape I do not use. I will need to rist the blanks. One to replace Uruz which was missing, and one to replace Hagalaz which I prefer in a different style. Overall great quality, poor execution. However, they will work perfectly once I get them finished. I'm giving it four stars because they are of such high quality, I would not have minded a whole set of blanks, and they will serve my purpose well. I cannot give it five stars because they did not mark the Uruz rune on its stave, and the bag was of poor quality.

The book is hard to use because the list of runes are on the back cover only and are only mention in the book by name, which you can only figure out by looking at the back cover. So there's a lot of flipping back and forth, which seems unnecessarily complicated. The runes themselves are very nice quality, clear, and not too small.

This is my first set of runes and as far as I can tell, they are of good quality. Each rune has an aged finish. Like they been handled a lot over the years and the natural oils from hands coated them. They come in a nice little box with a good quality red velvet satchel. This box set reminds me of something you would find in a museum gift shop. It has museum gift shop quality. I'm only giving it 4 stars because the little pamphlet inside didn't wow me. Instead of writing it in five different languages, they could've used those pages to elaborate on the history of runes and tell us how to better read them. Overall I'm pleased.

They are very nice wood runes. A great value for the price. The symbols are carved into the wood. They look good and feel good to the touch. The bag they came in is nice enough that I don't feel I

need to replace it. I would definitely recommend them, especially for a first set of runes.

they are smooth and lightweight.very easy to see which rune symbol is on the tile.easy to grasp from the bag - although the bag that comes with them is a bit too small - i purchased a larger bag here on

Perfectly sized runes (about the size of USA quarter coin), that are etched and stained nicely.The included bag is bright red with the reidh rune featured on the front. The only issue that I had was consistency with the runic forms. Twenty three of Twenty four were "traditional", while one, the Ing, used an alternate form. Not a big deal, but this could potentially confuse someone who was not VERY familiar with the Elder Futhark. Aside from this, a very satisfying purchase overall.

As others have reported the set came with two missing pieces. A bit of a disappointment. However I liked the look and feel of the set.Too Bad, sending back today.
