Synopsis

The sought after original SS publication "Waffen-SS im Western" is available here for the first time. Translated into English and carefully reproduced, this rare SS book photographically documents the Waffen-SS campaigns in Holland, Belgium, and France during 1940. The photos were taken by SS war correspondents and vividly illustrate the early SS combat troops as they conquered Western Europe. A clear concise history showing wartime footage, including uniforms, insignia, headgear, weapons and more. This book has often been regarded as one of the best publications ever printed by the Nazi regime on the Waffen-SS. It is a highly valuable photographic study for military historians and collectors alike.

Customer Reviews

Nice b&w photos of the SS at war on the western front. This is a great book and packed with photos of the SS, particularly soldiers of the SSVT division. There’s not really any text that goes along with the photos, this isn’t a book you would actually read it’s a book of just photos of the SS and the pictures of these brave SS soldiers are worth a look for SS enthusiasts.

This book is good for the photographs, which will be useful to the modeller, and historian. Don’t look for much in the text which is a bit corny. Some of the photos have been seen before, and others have not. The book is in a rather large format, which is nice, and the quality is standard Schiffer. A disappointment was no photos of the LSSAH, or SSTK. This is just on the SSVT units. I rated it 5 stars for the quality of the photos. Thanks.

Superb in every way! Highly recommended for collectors and students alike, wold happily purchase again! Very well done indeed. A great book.

Nice photos of these brave soldiers, and shows how civil they really were to their enemies. Nice non-posed photos of pow’s smiling and just relaxing in the company of these supposed "nazi butchers".
