History Of Philosophy, Vol. 11: Logical Positivism And Existentialism

Synopsis

Copleston, an Oxford Jesuit and specialist in the history of philosophy, first created his history as an introduction for Catholic ecclesiastical seminaries. However, since its first publication (the last volume appearing in the mid-1970s) the series has become the classic account for all philosophy scholars and students. The 11-volume series gives an accessible account of each philosopher's work, but also explains their relationship to the work of other philosophers.

Book Information

Paperback: 240 pages

Publisher: Continuum International Publishing Group (June 2003)

Language: English

Customer Reviews

Not quite the basic description of positivism that I had expected. More a semi-paranoid defense of contemporary British philosophers' practices.
